

VIPER ROPE CLEANER (VRC)

Removes contamination from the wire rope prior to lubrication.

Built-up residual lubricant and any associated foreign material encapsulates the wire rope, keeping in water and increasing the rate of corrosion.

Effective lubrication cannot occur until this built up residual lubricant and contamination is removed and replaced with a high-quality lubricant.

Viper Rope Cleaners enable the removal of contamination or built up old lubricant from the wire rope prior to lubrication, improving the effectiveness of the lubrication process via the Viper WRL.

Viper Rope Cleaners (VRC's) are available in left and right hand lay, to suit 6 and 8 strand ropes and other strand configurations on request.

SMOOTH BORE WIRE ROPE CLEANER

For certain types of wire ropes where the standard Viper Rope Cleaner is not suitable the Viper 'Smooth Bore' rope cleaner is available. The Smooth Bore Rope Cleaner would typically be used on hose ropes with a large number of outer strands, some non-rotational ropes, ROV cables, etc, where the valleys between the strands are minimal and do not readily facilitate a standard Viper Rope Cleaner.

5 PACK VRC NOW AVAILABLE.
Viper Wire Rope Cleaners are now available in a pack of 5*. Buy in bulk and save 30%.

*VMMRC not available as a 5 pack.
